Notice of forthcoming Key Decisions

Local authorities are required by law to give 28 days' notice of any key decisions to be made. The Forward Plan sets out information about the key decisions that Cabinet, individual Cabinet Members, Health and Wellbeing Board and the Better Places Joint Committee intend to make in forthcoming months. It ensures public notice of all key decisions is provided at least 28 days' in advance of the decision date.

The Forward Plan contains information about each forthcoming key decision and is published to the Council website every week, usually on a Friday.

What is a Key Decision?

The Lambeth Council Constitution defines a key decision as an executive decision that:

- 1) Requires an amendment to the Community Plan Outcomes Framework or requires a recommendation to Full Council to amend the Budget and Policy Framework.
- 2) Results in the local authority incurring expenditure, raising income or the making of savings in excess of £500,000.
- 3) Has a significant impact on:
 - a) communities living or working in an area comprising two or more wards in Lambeth;
 - b) the wellbeing of the community or the quality of service provided to a significant number of people living or working in an area; or,
 - c) Communities of interest.

The majority of key decisions are taken by the Cabinet or individual Cabinet Members (the Executive). Each Key Decision will be communicated via a comprehensive report which must be published at least five clear days before the decision is taken. Published reports can be accessed through [Decisions Online](#). Cabinet reports will also be available in [Cabinet agenda packs](#), which are published five clear days before the meeting.

The Executive cannot consider key decisions that have not been included on the Forward Plan. However, the Council Constitution sets out procedures that can be used if a decision that has not been advertised on the Forward Plan must be taken immediately. Urgency procedures can only be used in exceptional circumstances. For further information on Access to Information procedure rules please see Part 3, Section 2 of the [Council Constitution](#) or contact Democratic Services.

What information is included on the Forward Plan?

The Forward Plan gives information about:

- key decisions that are likely to be considered in forthcoming months
- the earliest date a key decision can be taken
- who will make a decision
- what consultation will be undertaken
- whether the forthcoming report is likely to include exempt or confidential information

- A list of background documents to be submitted to the decision maker for consideration in relation to the forthcoming decision
- who you can contact for further information

Public representations and further information

Each Forward Plan entry gives the name of the relevant officer to contact about that particular decision. Where possible, a contact name, e-mail address and telephone number are provided.

Members of the public can make representations about forthcoming decisions by:

- Contacting the Lead Officer responsible for the report
- Contacting the decision maker or relevant Cabinet Member (details can be found on the [council website](#))
- Contacting Democratic Services

Any document listed in the Forward Plan can be requested via the Lead Officer or by contacting Democratic Services. The reader is encouraged to access any such documents electronically, however copies or extracts may be made available at the following address on request: Olive Morris House, 18 Brixton Hill, SW2 1RD.

When making representations, members of the public may submit to the decision maker any further documents relevant to the decision.

All decision dates given in the Forward Plan are subject to change. Therefore please ensure that you *always consult the latest version of the Forward Plan* for the most up to date information. Any further queries can be directed to Democratic Services.

Notice of decisions likely to contain confidential or exempt information

Local authorities are required to specify 28 days in advance of a Cabinet meeting all the reports that are likely to contain confidential or exempt information. Should this be the case, a private 'Part 2' report will be produced to accompany the main report, but will not be published. The public and press may also be asked to leave the Cabinet meeting for part of the proceedings. Any person is able to make representations if he or she believes the decision should instead be made in the open part of the meeting.

If you wish to make any such representation please contact Democratic Services. All representations will be documented in the relevant agenda a minimum of five clear days before the Cabinet meeting takes place. This will also include any response to the representations and a statement of the reasons why the meeting is held in private.

For further information about exempt or confidential information please see the Access to Information Procedure Notes in Part 3, Section 2 of the [Council Constitution](#) or contact Democratic Services.

Decision: Lambeth Archives Options Appraisal

An Options Appraisal has recently been commissioned for the Lambeth Archives Service as part of the Culture 2020 delivery programme approved by Cabinet in October 2015. This decision report will present the findings of this appraisal, review the options identified and make recommendations for the future long-term home for the Archives Service.

It is generally recognised that the present location for the borough archives are not fit for purpose and the storage conditions do not meet the necessary standards.

Taking into account the Council’s overall requirements in delivering an effective Archives Service, this report will make recommendations for the preferred option for the future location of the service, based on the capacity to fulfil the following criteria:

- Affordability both in terms of the capital and revenue required of the council to maintain both the service and facilities.
- Improved accessibility
- Utilising new technologies and address preservation and storage of current digital and born-digital records
- Maximising income generation
- Providing a destination where people can access the service, discover and learn about local identity and heritage
- Meeting the necessary standards for archive storage
- Be of sufficient capacity to house the existing collection and its projected expansion

Ward(s) affected: All Wards

Decision: LBL Corporate Property Estate: 2016/17 Essential Building Condition & Lifecycle Maintenance Works

Essential building condition & lifecycle maintenance works to a number of Lambeth owned buildings.

Building condition surveys concluded in 2015 have revealed operational and major repair or replacement requirements across Lambeth’s property estate. Failure to carry out this work in the short to medium-term exposes Lambeth to the risk of major failure or breakdown and building possibly becoming inoperable, due to statutory compliance issues or conditions representing a health and safety risk or breach.

A number of the buildings require replacement of building elements or mechanical and electrical services in the short-term. Building condition surveys have revealed problems with the with building envelope (windows/roof etc.), building services (boilers/chillers etc.) in a number of Lambeth’s buildings

Essential compliance works in core buildings, four cemeteries, parks and open spaces, housing offices and libraries. Total £526,000.00

Ward(s) affected: All Wards

Decision: Proposal regarding the site at the former Clapham Old Library

Following the acquisition of the property at 60 Orlando Road, the Council is proposing to work with Ipsus Developments and Omnibus Theatre to bring forward plans for a small scale redevelopment of the rear of the site, with the aim of creating a new asset, subject to further discussions with the planning department and formal consent, which will provide a sustainable revenue stream to the parties. The form of this joint venture is being discussed and it is anticipated that any works contracts will be under the OJEU threshold.

The Council wishes to engage with the above parties who will bring the local and commercial expertise to the venture. Ipsus Developments brought the opportunity to the Council and in recognition of their input to the process, it is proposed that the Council continues to utilise their significant local development expertise.

The Council also wishes to continue to work collaboratively with Omnibus to ensure the future of the building as a leading performance arts venue.

<p>Decision: Young people’s integrated sexual health and substance misuse service: Lambeth</p> <p>This report seeks approval for the award of a contract in Lambeth for the young people’s integrated sexual health and substance misuse service. Approval is sought to award the contract for this new service to incumbent young people’s sexual health service provider, Brook. Brook will deliver a completely level 2 sexual health and targeted outreach clinic to vulnerable young people. They will subcontract to social care and health charity Change Grow Live (CGL) to provide substance misuse expertise and provision. However, the service will be fully integrated, with all staff trained to deliver advice and information around both sexual health and substance misuse. Additionally, a new staff role is being created to work across these areas – Wellbeing Support Worker. A new identity for the integrated service will be created in collaboration with young people.</p> <p>Ward(s) affected: All Wards</p>

Decision: Larkhall Park Opportunity Sites – Park Commitment and delivery route

There are three decisions that will be set out in the forthcoming report:

- 1) For the council to package together three council owned land assets known as the Larkhall Park Opportunity Sites in order to procure a delivery partner to build approximately 100 homes along with employment and community space. This is considered the most expedient and best value delivery approach for the council in meeting priorities in the Borough Plan (2016-21).
- 2) For the delivery partner to be procured through an existing framework and that partnership being formalised through a Development Agreement. Using an existing framework is considered to be the most expedient way in which the council can achieve best outcome. Use of a Development Agreement will ensure that the council can maintain control over the site outcomes, specifically income (capital and revenue), the affordable housing offer and timelines of delivery.
- 3) For the income generation to be used, in whole or part, to support improved investment in Larkhall Park and other community services in the borough.

Decision: Woodmansterne Secondary Enabling Works and Minor Modifications to the Primary School.

Willmott Dixon has been procured as the preferred bidder for the delivery of the new 5FE Secondary Department and 150 place Sixth Form at Woodmansterne School.

The programme to deliver the new school is very challenging and in order to mitigate some of the delay, it is proposed to engage Willmott Dixon early in the process to undertake some enabling works, works deferred from the primary school project and to complete some of the external works and drainage.

Its also proposed to engage with Willmott Dixon earlier in the design process including progressing with surveys and detailed design development. This will enable an early start of the construction works in parallel with the Pre-Contract Agreement being signed and the award of the main contract to Willmott Dixon.

Willmott Dixon will be asked to provide 3 quotes for each package of works to be awarded (as per the terms of the SCF Framework Agreement).
