---

Morning

Apologies our delay in getting back to you was, we were waiting for colleagues to come back to us.

We have now been informed of the following allocation of the SW4 PIL will be spend as follows:

- Boundary security (replacement of defective fencing with new bollards) – up to £10,000
- Paddling pool (replacement of existing pumps to ensure a reliable water system) – up to £10,000
- Battersea Rise playground (refurbishment of play infrastructure) – up to £10,000

Waiting on the full schedule of works which I can then forward on to your for further information.

Claire

**Subject:** PIL Sw4 2018

Good morning ladies

For the third time of asking, can someone get back to me with information on how this year's £30k PIL has been or will be spend? As I have previously been informed by yourselves, this money should all be going back into the Common but some details is needed.

There has been a specific comments in a negative rep against our 2019 license revolving around this matter so this information is needed.

Not sure why getting this is proving so difficult but would be good to have this information please so this can be included in our submission to Licensing in this case.

Regards

Andrew Mattle
