*Please fix the leaking roofs*

*I think spend money on new estate when finished*

*More enforcement for flytipping. It is a huge problem on the estate. It's such a lovely estate and the cleaners work really hard to keep it looking so nice. It's a shame that flytippers feel they can come here whenever they want.*

*Appropriate care and signals of rubbish and fly tipping so residents cannot dispose them around the community areas in the estate.*

*The filth around the bins is the most important thing for me be got under control. The refuse areas are absolutely disgusting. Cycle storage would be very useful. (I wasn't able to untick the outdoor gym on the list - it would be nice but bins and bikes take priority.)*

*Please get rid of the rats from the communal gardens around the blocks near Gipsy Hill.*

*The general overall upkeep and landscaping of the estate is dreadful all of the pathways have overgrown grass and weeds are everywhere it would be nice to see the grass cut and the planted areas maintained better*

*Northwood Way around the bin area. I have seen couple of trucks tipping refuse there all the the time and I think they should fix CCTV footage there to capture those people.*

*Rodent eradication*

*The cleaning on the whole estate, like the rodents, and other pest that we are living in, damp in every room the list is long.*

1. Signage for different buildings. High Limes is often difficult for delivery drivers to find because of poor signage. You could even employ residents to paint signs. 2. More public art spaces I.e mosaic, mural etc. Which residents can get involved in. 3. Conservation of local wildlife, I.e Jay Birds. Possibly link with Crystal Palace. 4. Spaces to hang out, benches, table tennis tables. Ideally near community art projects. 5. Communal veggie garden. Access to fresh, home grown fruit and veg enhances nutritional wellbeing for us cash strapped residents. 6. Gardening clubs. 7. Community companions for local elderly. To help prevent feelings of isolation.

Under all flats put barriers up to prevent fly tipping spending money on a gate that isn't used is pointless.

Yes, there needs to be a group set up of residents, council and impartial community people to make this decision. This fund is the estate's funds. It is not the council's nor the residents so I resent the council, which has no money, and an interest in short-termism on the estate is taking the lead instead of firstly engaging the community around this fund, before narrowing their choices in this manner. The leaflet has not reached out to the community at large.

Maybe a swing gate for cars coming in and out of car parks to stop cars being stolen at night time or day time and it will only allow residents in and out just need a pole to go up and down by a card like are dor entry systems

There should be CCTV cameras around the area , car parking for residents and street lights.

No more words. We want to see ACTION. Stop the Fly tipping. Put new security systems so only residents can Access the Estate.

Start Giving back to the residents of the central hill Estate. We want better homes, better living conditions. Better Quality of life.

A clamp down on anti social behaviour ( biggest problem) and cctv and security , money spent on repairs and up keep of the estate instead of demolition/ money spent on street lights on the estate on highland road ( currently not working ) more cctv to stop the progressing anti social behaviour

Flood lights

Better lighting across the entire estate

Improve the lighting on the basketball court
