2. The system will incorporate a camera covering each of the entrance doors and the main alcohol display area and will be capable of providing an image which is regarded as identification standard. The precise positions of the cameras may be agreed, subject to compliance with Data Protection legislation, with the police from time to time.
3. The system will incorporate a recording facility and any recording will be retained and stored in a suitable and secure manner for a minimum of 30 days and will be made available, subject to compliance with Data Protection legislation, to the police for inspection on request.
4. The system must be able to export recorded images to a removable means e.g. CD/DVD and have its own software enabled to allow playback/review.
5. A member of staff trained in the use of the CCTV system must be available at the premises at all times that the premises are open to the public.
6. The system will display, on any recording, the correct time and date of the recording.
