### CABINET

The Cabinet is made up of eleven elected Labour councillors, however only 10 will be acting in the capacity of Cabinet Member at any one time. They collectively make decisions, provide political leadership and implement policy through senior officers.

The Administration was elected with an increased mandate to deliver a fairer and more sustainable borough and with a commitment to stand on the side of Lambeth residents. The administration will be focused on tackling the cost of living crisis faced by many Lambeth residents, lobbying the government to do more to support local people and ensuring support is targeted at those who need it most.

The administration's ambitious manifesto commits to making Lambeth the best place to grow up and grow old, with a focus on ensuring more equal outcomes at each stage of resident's lives. This includes investing in services for young people, increasing the number of genuinely affordable homes in the borough and delivering a more inclusive local economy that gives everyone the chance to fulfil their potential. It also means building healthier neighbourhoods in every part of the borough, with active travel at the heart of an approach that will make our local communities cleaner, safer and more equal for all.

Throughout the administration's agenda will be a commitment to climate, social and racial justice – with radical ambitions to tackle the climate crisis, investment to create opportunities for all and a relentless focus on reducing inequality.
