

Parents and children involved in crime or anti-social behaviour

Indicator	Outcome achieved
<ul style="list-style-type: none"> A child under 18 years old who has committed a proven offence in the previous 12 months 	<ul style="list-style-type: none"> Offending rate by children in the family reduced by at least a 33% in the last 6 months
<ul style="list-style-type: none"> An adult or child who has received an anti-social behaviour intervention (or equivalent local measure) in the last 12 months 	<ul style="list-style-type: none"> A 60% reduction in anti-social behaviour across the family in the last 6 months
<ul style="list-style-type: none"> An adult prisoner who is less than 12 months from his/her release date and will have parenting responsibilities on release 	<ul style="list-style-type: none"> Offending rate by children in the family reduced by at least a 33% in the last 6 months Offending rate by all adults in the family reduced by at least a 20% in the last 6 months
<ul style="list-style-type: none"> An adult who is currently subject to licence or supervision in the community, following release from prison, and has parenting responsibilities 	<ul style="list-style-type: none"> Offending rate by children in the family reduced by at least a 33% in the last 6 months Offending rate by all adults in the family reduced by at least a 20% in the last 6 months
<ul style="list-style-type: none"> An adult currently serving a community order or suspended sentence, who has parenting responsibilities 	<ul style="list-style-type: none"> Offending rate by children in the family reduced by at least a 33% in the last 6 months
<ul style="list-style-type: none"> Adults or children nominated because their potential crime problem or offending behaviour is of equivalent concern to the indicators above 	<ul style="list-style-type: none"> Reduction in police call outs to family home by 60% in the last 6 months
<ul style="list-style-type: none"> Adults or children identified on the Lambeth's Gangs Matrix 	<ul style="list-style-type: none"> Adult or child no longer listed on Gangs Matrix

Families affected by domestic violence and abuse

Indicator	Outcome achieved
<ul style="list-style-type: none"> A young person or adult known to local services has experienced, is currently experiencing or is at risk of experiencing domestic violence and abuse 	<ul style="list-style-type: none"> Increased safety for family demonstrated using at least one of the following measures: <ul style="list-style-type: none"> CAADA-DASH Risk Identification Checklist (RIC) score (above 14 – high) falls below 14 for 3 continuous months OR no further RIC assessment required for 6 months DASH score (below 14) reduced by 25% and sustained for 6 months period Reduction of at least one level within the Barnardo's Domestic Violence Risk Identification Matrix No repeat MARAC referral in 6 months since first referral Conviction / civil remedy / Domestic Violence Protection Order in relation to perpetrator OR similar
<ul style="list-style-type: none"> A young person or adult who is known to local services as having perpetrated an incident of domestic violence or abuse in the last 12 months 	<ul style="list-style-type: none"> As above or Perpetrator engages in perpetrator programme
<ul style="list-style-type: none"> The household or a family member has been subject to a police call out for at least one domestic incident in the last 12 months. 	<ul style="list-style-type: none"> As above or 60% reduction in Domestic Violence police call outs

Children who need help: children of all ages, who need help, are identified as in need or are subject to a Child Protection Plan

Indicator	Outcome achieved
<ul style="list-style-type: none"> Children who don't take up the Early Years Entitlement (A child who has been identified as needing early help) 	Take up an offer of 2 or 3 year old funding entitlement for early education
<ul style="list-style-type: none"> Children identified as having social, emotional and mental health problems (A child who has been identified as needing early help) 	Improved behaviour of a child or young person after a six month period and improved parenting skills where relevant. Measured by Early Intervention Outcome tool - Parenting and Parenting Capacity (Strand 7)
<ul style="list-style-type: none"> Children who have been reported as missing from home and identified as of concern (A child who has been identified as needing early help) 	60% reduction in incidents of going missing as compared with previous 6 month period
<ul style="list-style-type: none"> Children who are repeatedly assessed under Section 17 or 47, of the Children Act 1989, but not deemed a 'child in need' (A child who has been identified as needing early help) 	Child and family no longer receive a statutory social work service (CIN & CPP) and not re-referred to statutory social work for a 6 month period
<ul style="list-style-type: none"> Children who are subject to Early Help Assessments (A child who has been identified as needing early help) 	Early Help intervention completed, case closed and there are no repeat referrals for support in the following 6 month period
<ul style="list-style-type: none"> A child 'in need' under Section 17, of the Children Act 1989 	
<ul style="list-style-type: none"> A child who has been subject to an enquiry under Section 47, Children Act 1989 	Child and family no longer receive a statutory social work service (CIN & CPP) and not re-referred to statutory social work for a 6 month period
<ul style="list-style-type: none"> A child subject to a Child Protection Plan 	
<ul style="list-style-type: none"> A child who has been identified as at risk of sexual exploitation (A child who has been identified as needing early help) 	Early Help intervention completed, case closed and there are no repeat referrals for support in the following 6 month period
<ul style="list-style-type: none"> A child nominated as having problems of equivalent concern to the indicators above 	A child referred as at risk of child sexual exploitation has reduced risk for 6 months Measured by Early Intervention Outcome Tool - Challenging and Risky behaviour (Strand 4)

Children who have not been attending school regularly

Indicator	Outcome achieved
<ul style="list-style-type: none"> A child who is persistently absent (<90% attendance) from school for an average across last 3 consecutive terms 	<ul style="list-style-type: none"> Every child in the household has attended school, over three consecutive terms, in excess of 90%
<ul style="list-style-type: none"> A child who has received at least 3 fixed term exclusions in the last consecutive 3 terms 	<ul style="list-style-type: none"> Every child in the household has attended school in excess of 90%, over three consecutive terms, with no more than 2 fixed term exclusions per person
<ul style="list-style-type: none"> A child at primary school who has had at least 5 school days of fixed term exclusions in the last consecutive 3 terms 	<ul style="list-style-type: none"> Every child in the household has attended school in excess of 90%, over three consecutive terms, with no more than 2 fixed term exclusions per person
<ul style="list-style-type: none"> A child of any age who has had at least 10 days of fixed term exclusion in the last 3 consecutive terms 	<ul style="list-style-type: none"> Every child in the household has attended school in excess of 90%, over three consecutive terms, with no more than 2 fixed term exclusions per person
<ul style="list-style-type: none"> A child who has been permanently excluded from school within the last 3 school terms 	<ul style="list-style-type: none"> Every child in the household has attended school in excess of 90% over three consecutive terms with no permanent exclusions
<ul style="list-style-type: none"> A child who is in alternative educational provision for children with behavioural problems 	<ul style="list-style-type: none"> Every child in the household has attended school, over three consecutive terms, in excess of 90%
<ul style="list-style-type: none"> A child who is neither registered with a school, nor being educated in an alternative setting 	<ul style="list-style-type: none"> Every child in the household has attended school, over three consecutive terms, in excess of 90%
<ul style="list-style-type: none"> A child nominated as having school attendance problems of equivalent concern because he/she is not receiving a suitable full time education. 	<ul style="list-style-type: none"> Every child in the household has attended school, over three consecutive terms, in excess of 90%

Adults out of work or at risk of financial exclusion or young people at risk of worklessness

Indicator

An adult in receipt of out of work benefits

Outcome achieved

Movement off out of work benefits (or off Universal Credit, as appropriate), **and** the sustainment of a period of continuous employment (13 or 26 Weeks, dependant on benefit type (See Financial Framework))

A family member has undertaken a work or volunteering placement and placement completed OR has attended for 13 consecutive weeks (whichever is sooner)

A family member improves their overall RAG rating on DWP 5 stages to work assessment over the course of the intervention, plans in place for continued engagement with employment and skills provision

A family member has either volunteered for the Work Programme or attached to the European Social Fund provision in the last 6 months.

An adult who is claiming Universal Credit and is subject to work related conditions

Family members are in receipt of Universal Credit (UC) and remain on benefit; the outcome must satisfy the current Department of Work (DWP) and Pension earnings thresholds

A family member has undertaken a work or volunteering placement and placement completed OR has attended for 13 consecutive weeks (whichever is sooner)

- A child who is about to leave school, has no / few qualifications and no planned education, training or employment

- A family member has undertaken a work or volunteering placement and placement completed OR has attended for 13 consecutive weeks (whichever is sooner)

- A family member improves their overall RAG rating on DWP 5 stages to work assessment over the course of the intervention, plans in place for continued engagement with employment and skills provision

- A family member has either volunteered for the Work Programme or attached to the European Social Fund provision in the last 6 months.

- A young person who is not in education, training or employment

- A family member has undertaken a work or volunteering placement and placement completed OR has attended for 13 consecutive weeks (whichever is sooner)

- A family member improves their overall RAG rating on DWP 5 stages to work assessment over the course of the intervention, plans in place for continued engagement with employment and skills provision

- A family member has either volunteered for the Work Programme or attached to the European Social Fund provision in the last 6 months.

- Parents and families nominated as being at significant risk of financial exclusion. This may include those with problematic / unmanageable levels and forms of debt and those with significant rent arrears

- A family member has undertaken a work or volunteering placement and placement completed OR has attended for 13 consecutive weeks (whichever is sooner)

- A family member improves their overall RAG rating on DWP 5 stages to work assessment over the course of the intervention, plans in place for continued engagement with employment and skills provision

- A family member has either volunteered for the Work Programme or attached to the European Social Fund provision in the last 6 months

- Debt levels to social housing greater than £450.

- An income and debt re-payment plan is in place and implemented for at least 13 weeks and there is no escalation in sanctions

- Social Housing debt levels reduced to below £250

Parents and children with a range of health problems

Indicator	Outcome achieved
<ul style="list-style-type: none"> • An adult with mental health problems who has parenting responsibilities • A child with mental health problems 	<ul style="list-style-type: none"> • Review assessment demonstrates improvement in or appropriate management of mental health condition at case closure / step down from intervention
<ul style="list-style-type: none"> • An adult with a drug and / or alcohol problem who has parenting responsibilities • A child with a drug and / or alcohol problem 	<ul style="list-style-type: none"> • Review assessment demonstrates reduction in harmful or hazardous drug or alcohol use at case closure / step down from intervention • Family member has attended and successfully completed drug or alcohol treatment programme
<ul style="list-style-type: none"> • A new mother who has a mental health or substance misuse problem and other health factors associated with poor parenting. This could include mothers who are receiving a Universal Partnership Plus service or participating in a Family Nurse Partnership; 	<ul style="list-style-type: none"> • Review assessment demonstrates improvement in or appropriate management of mental health condition at case closure / step down from intervention • Review assessment demonstrates reduction in harmful or hazardous drug or alcohol use at case closure / step down from intervention • Family member has attended and successfully completed drug or alcohol treatment programme
<ul style="list-style-type: none"> • Adults with parenting responsibilities or children who are nominated by health professionals as having any mental and physical health problems of equivalent concern to the indicators above. This may include unhealthy behaviours, resulting in problems like obesity, malnutrition or diabetes. 	<ul style="list-style-type: none"> • Review assessment demonstrates improved management of long-term health conditions at case closure / step down from intervention
<ul style="list-style-type: none"> • Any of the above indicators can be evidenced with the following outcomes: 	<ul style="list-style-type: none"> • Family improve uptake of health care services, where appropriate • Family participate in a positive activity for 8 weeks or more e.g. parenting course • Family show 33% reduction in hospital admissions (12 month baseline, performance measured on 6 months data doubled) • Family show 33% reduction in attendances at A&E (12 month baseline, performance measured on 6 months data doubled) • Child and family no longer receive a statutory social work service and not re-referred to statutory social work for a 6 month period • Child and family removed from child protection plan and no repeat plan within a minimum 6 month period • Improvement in the wellbeing of parents/ carers, demonstrated using: <ul style="list-style-type: none"> • the Warwick-Edinburgh Mental Well-being Scale (WEMWBS) • the Depression Anxiety and Stress Scale (DASS) • Improvement in the emotional wellbeing of child using: <ul style="list-style-type: none"> • Strengths and difficulties questionnaire (4-16 years); • OR similar standardised evidence based tool • Improvement in parenting confidence / ability. Measured by <ul style="list-style-type: none"> • Early Intervention Outcome tool - Parenting and Parenting Capacity (Strand 7)
