Early Action and Prevention

Action	Tasks/ Milestones	Owner	Output/Reporting Frequency	RAG Rating
1. Work with local voluntary and community organisations to strengthen the sector and local networks	<ul style="list-style-type: none"> Development of voluntary sector strategy that reflects the role of the health and social care VCS in relation to early action and prevention as part of the wider sector 	Grace Gbadamosi - Third Sector Development Manager, LBL	Coproduced Lambeth Voluntary and Community Sector Strategy	•GREEN
<p>Update/Comments</p> <ul style="list-style-type: none"> In Jan 2017 Lambeth Council brought together an informal steering group comprised of 25 local Voluntary & Community (VCS) organisations to help develop a VCS Strategy and shape a commission for a VCS support service. 11 of which are Health & Social Care providers. The VCS strategy will reflect the broader context of the Borough Plan, Health & Wellbeing Strategy and the findings of the recent Equality Commission. <p>VCS development strategic objectives:</p> <ul style="list-style-type: none"> Leverage more funds and resources into the borough Increase the scope of organisational development and capacity building of the sector Improve the coordination of network relationships and trust between organisations Increase representation on strategic partnership boards to give the sector a stronger voice <ul style="list-style-type: none"> A VCS Conference took place in July 2017 as part of the development process for a new VCS Strategy for Lambeth. The conference was addressed by Cllr Paul McGlone from Lambeth Council and Moira McGrath representing Lambeth CCG. Equinox Consulting were enlisted to manage the consultation and engagement process and have produced their final report. This report will be used to inform the strategy and officers are currently drafting a document that will be consulted on with both the VCS steering group and within the council and CCG. This is important given that the aim is to have a strategy that is jointly owned by the VCS and the public sector (or at least the council and CCG). <p>At this early stage there are three principal options for this support:</p> <ol style="list-style-type: none"> A traditional Council for Voluntary Service (CVS) model where the council commissions an organisation to act as the umbrella body for the VCS, representing the VCS on strategic partnerships, and providing direct support to VCS organisations for capacity building and funding bids. The CVS might also offer training and provide regular communications to the local VCS. A group, similar to the existing steering group, continues and acts as a commissioning body. They identify areas where the VCS needs support and co-design appropriate service specifications to be commissioned with the public sector. This means there are a series of time-limited, smaller contracts providing support to the VCS. The steering group chooses representatives to join strategic partnerships. A “curation” model, where the public sector commissions a provider(s) to harness support that already exists which the VCS could access (providing they are aware of it); to facilitate peer-to-peer support within the VCS; and to facilitate networks and forums where the VCS can develop trust and relationships. As above, a VCS steering/liaison group continues and members of this are in favour. 				

<ul style="list-style-type: none"> In each of these models, the public sector retains a role in seeking to influence external funders (e.g. charitable trusts); sharing data and information where possible to aid collaboration; and being willing to involve the VCS in strategic partnerships. Comments on the current direction of the VCS Strategy, specifically the proposed objectives and the options for the delivery of strategic support are welcome. 				
2. Deliver LEAP for children under 4 and their families and the wider CYP Plan	<ul style="list-style-type: none"> Assurance to HWB through the CYP of programme delivery and harnessing and enhancing health and wellbeing impacts 	Laura McFarlene Director LEAP Partnership Board	<i>Quarterly reports</i>	<ul style="list-style-type: none"> AMBER
	<ul style="list-style-type: none"> Following completion of the CYP consultation, assurance to the HWB through the SHB of CYP plan delivery. 	Dan Stoten –AD Childrens, LCCG	<i>Quarterly reports</i>	<ul style="list-style-type: none"> AMBER
Update/Comments				
LEAPS <ul style="list-style-type: none"> The LEAP partnership remains strong and engaged in the delivery of the programme across the 4 wards of Coldharbour, Stockwell, Vassall and Tulse Hill. There is strong leadership in place and good engagement from statutory and community sector. The co-chairing of the LEAP board has been recently taken on by Annie Hudson – Strategic Director Childrens Services. The challenge for the coming period is to accelerate the pace of delivery and to maximise the opportunities for scaling the interventions across the 4 wards. LEAP continues to work closely with local authority and CCG colleagues to maximise opportunities for the sharing of learning from LEAP. The delivery of the interventions continues to roll out, with 9 interventions in live service delivery mode, and a further 11 in service design phase. The Community Engagement Strategy is being rolled out across the 4 wards providing an opportunity for local parents and community groups to reach and engage with all parent’s. LEAP is involved in the development of the A Better Start Strategic approach to developing integrated provision across maternity, early childhood services and health provision. There is ongoing work with GPs in the LEAP area to improve communication between midwives, health visitors and GPs to enable the safe sharing of information and reduce duplication and thereby ensure that optimum care is provided to families with young children. Three implementation evaluations have been carried out of the community Activity and Nutrition programme, The Parent and Infant Relationship Service, and the Parent Champion Programme to enable learning at an early stage, and deep dive reviews have taken place across all interventions during July and August. The LEAP Partnership will hold a strategy day in October, focusing on achievements to date, and planning for the next period of delivery. On September 28th and 29th LEAP will host the “Beginning Before Birth” Conference. This is one of a series of Learning and development events, supported by the Big Lottery Fund, that offer an opportunity for the five A Better Start sites to come together and hear the latest research, policy and practice in early child development. This conference focuses on the ante-natal period, and looks at what works to support better outcomes for pregnant women and children. The key themes are: health behaviours in pregnancy, mental health and relationships, and transforming services and support. 				
CYP				

Draft Lambeth Health and Wellbeing Strategy Refresh Year 1 (2017-2018) Implementation Plan Report – QTR 1&2

<ul style="list-style-type: none"> • A Better Start programme is progressing well, with very strong stakeholder engagement and alignment with LEAP. • Extensive engagement and consultation undertaken in order to inform the development of the Children and Young People’s Plan. We received the views of over 300 people across the Borough from representative ages, demographic groups, and geographic areas. • Draft of the CYP Plan has been through various stakeholder meetings and is due for publication in November 2017. • Campaign development, working closely with colleagues in Public Health through the lens of the After Tomorrow work, is progressing well. 				
3. Develop health improvement services as part of public health commissioning	<ul style="list-style-type: none"> • <i>General health improvement consultation on public health savings</i> • <i>Conduct an evidence review around prioritised health improvement services and run service redesign workshops</i> • <i>Procure relevant health improvement services</i> 	Michelle Binfield - AD Public Health Commissioning – LBL	<i>Quarterly reports</i>	<ul style="list-style-type: none"> • GREEN
				<ul style="list-style-type: none"> • GREEN
				<ul style="list-style-type: none"> • AMBER
Update/Comments <ul style="list-style-type: none"> • Redesign of smoking cessation offer/pathways complete and procurement options being considered – may be slightly delayed while decision is made around the available funding envelope following request for more savings. • Redesign of weight management offer/service completed but request for savings from the council means we may manage without this service in favour of a low level preventative/advisory offer only which will signpost. Filter into Tier 3 needs consideration with CCG. 				
4. Further implement the Black Thrive (mental health commission) action plan	<ul style="list-style-type: none"> • <i>Assurance to HWBB through the SHB of programme delivery and harnessing and enhancing health and wellbeing impacts.</i> 	Patrick Vernon – Black Thrive Lead	<i>Half Yearly – SHPB Annually - HWBB</i>	<ul style="list-style-type: none"> • Green
Update/Comments <ul style="list-style-type: none"> • Between June to July Black Thrive have set up 4 working groups (access, patient experience, prevention and children and young people) and a shared measurement steering group. • They are in the process of developing priorities leading to our away day in November with the proposed outcome of a 12/18 month action plan from January 2018. 				

Transforming Systems and Integration

Action	Tasks/Milestones	Owner	Output/Reporting Frequency	RAG Rating
<p>1. Support delivery of key areas of system transformation, including Strategic Partnership, Integrated Personalised Support Alliance, Special Education Needs and Disability, Children’s & Young People (CYP) strategy, Sustainability and Transformation Plan (STP), South East London programme</p>	<ul style="list-style-type: none"> • <i>Prioritise key transformation programmes and provide through the SHB, support and advice on adopting a prevention focus, tackling health inequalities and promoting coproduction particularly recognising the role of citizens.</i> • <i>Specifically, embedding public health prevention policies into STP within the wider council, and support and advice the CCG to focus on incorporating the post consultation outcomes. Priority programmes to include:</i> <ul style="list-style-type: none"> ○ <i>Children and Young People</i> ○ <i>Sexual health</i> ○ <i>Mental health</i> ○ <i>Community based care through Local care Networks</i> ○ <i>South East London Transformation Programme</i> ○ <i>Homeless Health and Refugee Pathway</i> 	<p>Lambeth Council/ Lambeth CCG</p> <p>Dan Stoten Michelle Binfield Dennis O’Rouke Amanda Williams Ruth Hutt David Orekoya</p>	<p><i>Quarterly reports</i></p> <p><i>TBC post consultation June 2017</i></p>	<p>AMBER</p> <p>GREEN</p> <p>GREEN</p> <p>AMBER</p> <p>GREEN</p> <p>GREEN</p>
<p>Update/Comments</p> <p>NOTE: In task 2 the Board is asking for assurance of how prevention is embedded into the above programmes; what the prevention elements are; how these elements are embedded into service delivery? If this is not happening, how can the Board support this to happen?</p> <ul style="list-style-type: none"> • Children and Young People <ul style="list-style-type: none"> ○ The Children and Young People’s Plan has early intervention and prevention as one of its building blocks: to the point where it forms one of our system design principles. ○ There is also a clear steer towards Early Help and driving the increase of community resilience and self-care. ○ Equally, the plan itself has been developed using the newly refreshed JSNA, and alongside the development of the After Tomorrow scenarios work. ○ The CYP Plan also draws clear parallels with the CYPHP programme, which is supporting the better management of common conditions in the community. ○ <i>From a CAMHs point of view</i>, we have been working with SLAM to develop the Wellbeing Practitioner post, which aims to prevent children and young people from escalating into a T3 service. Equally, our CAMHs Transformation Projects are ongoing and in evaluation, which work with specific groups of children and young people to improve their mental health. ○ <i>From a SEND perspective</i>, one of the key elements of the SEND Joint Area Inspection is ensuring we are identifying early any potential special educational needs or disabilities. This again forms a building block of all the work ongoing regarding SEND; while there are strengthening links between our Early Years teams and SEND. 				

- **Sexual health**
 - Work continues under the auspices of the London Sexual Health Transformation Project.
 - A new e-service has been commissioned which Lambeth will access when it is ready (mobilisation delayed to 2018) and joint work is underway to commission a new shared analytics platform across London to support contract management.
- **Mental health**
 - Following completion of a procurement process in July 2017 the development / negotiation process has commenced between an alliance provider grouping and commissioners in September 2017 with the aim of agreeing a 7-10 year alliance contract by April 2018.
 - This is an outcomes based contract aimed at significantly improving the support and service offer to adults of working age with mental health problems.
 - A work programme is currently being developed including co-design with key stake holders.
- **Community based care through Local care Network**
 - Development, piloting and phased implementation of Care Coordination underway. Working groups established all of which have patient participation group (PPG) representatives.
 - Piloting health and wellbeing conversations as key component of person centred care planning for people with multiple complex conditions
 - Self-management working group developed self-management resource pack for local health care professionals. Input from local citizens and PPG.
 - Lambeth and Southwark Patient Focus Groups inputting into the development of care coordination tools/ assessments
 - I statements incorporated into the Care Coordination outcome measures
 - LCN Forums established, bringing together local community groups, health and care professionals and PPG representatives. Focus on wider health and wellbeing and networking/ connecting
 - Citizen Forum meetings used to discuss and involve local people in developing self-management understanding and person centred care plans.
- **South East London Transformation Programme**
 - A prevention program has been established at SE London STP footprint level based on priorities identified through public health workshop in March
 - The workstreams are: Mental health, health intelligence, Making every contact count (MECC), population health management systems, obesity, smoking & alcohol & PH communication. Each workstream is led by a DPH.
 - Each workstream is developing a number of key areas for collaboration which can be delivered across SE London. For mental health this may include development of the core elements of a suicide prevention strategy and centralisation of a training offer around MH first aid for non NHS front line workers.
- **Homeless Health and Refugee Pathway**
 - Undertake mapping of current accommodation and health provision, for vulnerable single homeless population in Lambeth, including identification of current funding arrangements.
 - This will contribute to initial scoping of review of current service offer which will be utilised to agree priorities and outcomes to inform commissioning intention to develop more integrated health (and if possible social care) offer for implementation during 18/19.

Health and Wellbeing in all Policies

Action	Tasks/Milestones	Owner	Outputs/Reporting Frequency	RAG Rating
<p>1. Develop and implement a programme of Health Impact Assessments (HIAs) across all new policy and strategic developments, and agree key priority areas for the roll out</p>	<ul style="list-style-type: none"> Conduct at least 2 Health and Wellbeing Impact Assessments using the Borough plan to prioritise key areas e.g. housing and regeneration Designing the process to enable the scoping and identification of when to systematically carry out HIA's 	<p>Bimpe Oki - Public Health Consultant</p> <p>Ruth Hutt - Staying Healthy Partnership Board</p>	<p>Health and Wellbeing Impact Assessment Reports</p>	<ul style="list-style-type: none"> AMBER
<p>Updates/ Comments</p> <ul style="list-style-type: none"> Public Health are working with Regeneration colleagues to explore a shared approach to integrating health and wellbeing into regeneration initiatives. Using the Larkhall development to identify ways of joint working, Public Health has produced a health and wellbeing profile for the Larkhall development area, with a view to use the intelligence to inform the development process. Further conversations are being held with the Estate Regeneration team to identify potential opportunities for a Health and Wellbeing Impact Assessment for new developments. Housing is now represented on the Staying Healthy Partnership Board 				
<p>2. Include health and wellbeing as a mandatory part of all procurement and decision making reporting</p>	<ul style="list-style-type: none"> Using the LGA HIAP peer review findings agree priority areas to explore mandatory inclusion of health and wellbeing considerations in procurement and decision making Monitor and Review implementation of the LA declaration on sugar reduction and healthier food and use learning to inform future action. 	<p>Bimpe Oki - Public Health Consultant</p> <p>Jim Dickson - Lambeth Council Cabinet member</p>	<p>LA Declaration on sugar reduction and healthier food progress reports</p>	<ul style="list-style-type: none"> AMBER
<p>Updates/ Comments</p> <ul style="list-style-type: none"> LA Sugar Declaration signed – following feedback from LGA HIAP peer review that tackling food issues could provide an opportunity to understand how to practically include health and wellbeing considerations in procurement and decision making. <p>In relation to the Declaration</p> <ul style="list-style-type: none"> Lambeth Council has approved its new Sponsorship Policy. The policy aims to tackle advertisement and sponsorship under the control of the council. It notes: “The council shall not offer or agree sponsorship opportunities in respect of anything that would undermine or contradict the council’s strategic priorities, especially with regard to health and wellbeing, animal welfare or the environment” including agreements for sponsorship promoting sugar sweetened drinks and high fat /sugar/salt foods Working with YNTH Wellbeing Strategy group to limit the availability of high fat/ sugar/salt foods. Public Health, HR and YNTH Wellbeing Strategy group are working together to agree plan for London Healthy Workplace Charter accreditation 				

Draft Lambeth Health and Wellbeing Strategy Refresh Year 1 (2017-2018) Implementation Plan Report – QTR 1&2

<p>3. Develop a learning and development programme for staff on the impact of services on health and wellbeing.</p> <p>Ensure that health and wellbeing is integrated into staff development programmes</p>	<ul style="list-style-type: none"> Use the learning from the Health is Everybody’s Business development programme pilot and explore with L& D opportunities to inform the development of organisational programmes regarding promoting health and wellbeing. Lambeth council as part of “Your New Town Hall” wellbeing strategy work towards the London Healthy Workplace Charter accreditation. Support Making Every Contact count (MECC) implementation by providing access to training materials for staff in contact with the public. 	<p>Gareth Roberts - Learning and Development Team / Public Health</p> <p>Gareth Roberts Human resources and Organisational Development</p>	<p>Lambeth Council Leadership and Personal Growth Programmes – update reports</p> <p>GLA Healthy Workplace Charter Registration</p>	<ul style="list-style-type: none"> Green Green Amber
<p>Updates/ Comments</p> <ol style="list-style-type: none"> Lambeth Leadership Essentials is currently being rolled out to all people managers. Phase 1 commenced Sep 2017, with phase 2 implementation planned for Dec 2017. Leadership development for senior managers (AD and above) is currently under development and is likely to incorporate the outcome findings of Health: A Lambeth Coproduction (HALC). HR L&D due to meet with Public Health to scope out requirements on 26/09/27. YNTH Wellbeing Strategy Group reconvening 12/10/17 The council’s current eLearning provision will be re-procured in readiness for Cloud Oracle implementation. MECC will be included within the tender spec for implementation from 01 April 2018. 				
<p>4. Deliver on key areas including: Active Lambeth, Healthy Streets Commission, employment and financial resilience, regeneration, and healthy schools</p>	<ul style="list-style-type: none"> Assurance to HWBB through the Staying Healthy Board of programme delivery and harnessing and enhancing health and wellbeing impacts for the key areas starting with established health and wellbeing partnership groups e.g. Alcohol Prevention, Tobacco Control Alliance, Strategic Healthy Weight and Food Group, LSL Infection control. Deliver on the Lambeth Air Quality Action Plan objectives. Agree alignment of key borough priorities with relevant PHOF indicators 	<p>Ruth Hutt/ Bimpe Oki - Public Health</p>	<p>Quarterly Reports from relevant partnership groups</p>	<p>GREEN</p>
<p>Updates/ Comments</p> <p>NOTE: On task 1 the Board will require each partnership group to complete a ‘Staying Healthy Partnership Board Summary Report to update on the progress for review.</p> <ul style="list-style-type: none"> Lambeth and Southwark Tobacco Control Alliance has met and has considered the most up to date evidence on Shisha, including what we know locally about Shisha. Opportunities are being explored to raise local awareness of the risks of Shisha. 				

- The Lambeth Strategic Healthy Weight, Physical Activity and Food Group has been established, this consists of colleagues from the CCG, Children and Adult Services, Leisure and Parks, Planning, Transport and Public Health.
- The Lambeth Annual Infection Control Report was presented to the Staying Healthy Partnership Board in August.
- Air quality has been included in the Health and Wellbeing Strategy Implementation Plan with the overarching objective ‘to reduce exposure to air pollution and to raise awareness’. The Lambeth Air Quality Annual Status Report will be signed off by the Staying Health Partnership Board.
- Relevant “Public Health” Performance indicators for the Borough Plan has been agreed. In addition key Public Health indicators relating to the Borough Plan are included in the Lambeth Health and Wellbeing Outcomes
- Staying Healthy response to the Lambeth Equalities Commission report completed

Housing

Action	Tasks/Milestones	Owner	Outputs/Reporting Frequency	RAG Rating
<p>1. <i>Understand populations, including their housing and health needs, as part of the Joint Strategic Needs Assessment (JSNA)</i></p> <p>NOTE THIS ACTION IS CURRENTLY BEING REVISED SO REPORTING WILL NOT BE NECESSARY UNTIL ADVISED</p>	<ul style="list-style-type: none"> • <i>Agree scope for Housing Needs Assessment as part of the joint strategic needs assessment.</i> <p>NOTE THIS ACTION IS CURRENTLY BEING REVISED SO REPORTING WILL NOT BE NECESSARY UNTIL ADVISED</p>	<p>Bimpe Oki/ Mandy Green -Public Health / Housing</p>	<p><i>Housing JSNA Scoping paper</i></p>	
<p>Update/Comments</p> <p>NOTE THIS ACTION IS CURRENTLY BEING REVISED SO REPORTING WILL NOT BE NECESSARY UNTIL ADVISED</p>				
<p>2. <i>Publish a Strategic Housing Market Assessment (SHMA), projecting the housing requirements for different groups over the next 20 years</i></p>	<ul style="list-style-type: none"> • <i>Develop the Strategic Housing Market Assessment as part of the Lambeth Local Plan review.</i> 	<p>Mandy Green – AD Strategic Housing</p>	<p><i>Strategic Housing Market Assessment Report</i></p>	<ul style="list-style-type: none"> • GREEN
<p>Update/Comments</p> <p>This action has been completed and will be published as part of the Issues and Options review after the cabinet meeting on 9th October 2017</p>				

<p>3. Carry out a Health Impact Assessment on the effect of the £500m capital investment programme in Lambeth's council housing and identify other relevant schemes</p>	<ul style="list-style-type: none"> • Build on the findings from existing HIA report to quantify and enhance potential health and wellbeing benefits. • Post Grenfell Tower Review 	<p>Mandy Green - Housing/Public Health</p>	<p>Progress Reports</p>	<ul style="list-style-type: none"> • GREEN
<p>Update/Comments</p> <p>HIA useful evidence to quantify impact of LHS programme, but limited scope to affect future delivery at this stage; current focus is on fire safety and response to Grenfell. Fire risk assessments in progress.</p>				
<p>4. Create a better understanding between health, housing and social care of how services and systems can work together to improve wellbeing</p>	<ul style="list-style-type: none"> • Organise joint workshops between Housing and Public Health, and seek opportunities for joint working. Areas of focus to include: overcrowding (and links to LEAP, homeless & restate, regen) • Extend Staying Healthy Partnership Board membership to include Housing 	<p>Bimpe Oki Public Health /Mandy Green- Housing</p>	<p>Progress Reports</p> <p>SHB Terms of Reference</p>	<ul style="list-style-type: none"> • GREEN
<p>Update/Comments</p> <ul style="list-style-type: none"> • Workshop between housing and public health taken place • Housing is now represented on Staying Healthy Partnership 				

Joint Strategic Needs Assessment (JSNA)

Action	Tasks/Milestones	Owner	Outputs/Reporting Frequency	RAG Rating
