

## **Appendix I – Cross Border Information**

Indications from neighbouring boroughs in June 2017 were that expansions were going ahead at secondary but there were still likely to be shortages:

- Southwark schools are expanding close to Lambeth's border but estimate they may still have a shortage by 2021;
- Merton estimates they will have a shortage of 10FE by 2018;
- Croydon estimates that they will need 6FE in 2018;
- Lewisham are net exporters at secondary but are expecting a 6FE shortage by 2019;
- Sutton are expanding existing secondary schools by 10FE in 2016; and,
- Wandsworth are the exception as they have a surplus of secondary Year 7 places, and this is expected to remain the case until 2020.
